Exercise 1

Find all bookings of more than 200 and less than 600 for Spanish and French passengers in 2017 (35 rows returned)

Exercise 2

- Retrieve bookings where the airline is NOT 'Ryanair' or 'EasyJet', and the amount is at least 2800. (54 rows returned)

Exercise 3

- Find all bookings made in January or February 2016 with a seat class of 'Business'. (11 rows returned)

Exercise 4

- List all bookings where the last name starts with 'A' and the postal code ends in '9'. (2 rows returned)

Exercise 5

- Retrieve all bookings where the email is missing (NULL). (1 row returned)

Exercise 6

- Find all bookings that have a valid booking date (NOT NULL) and an amount greater than 2500. (174 rows returned)

Exercise 7

- Find all bookings where the destination is missing but the origin is specified (1 row returned)

Exercise 8

- List the 5 most expensive bookings (lastname, bookingdate, airline, origin and destination) of French and Spanish passengers who flew with Iberia in 2017 and whose origin and destination were within the same country.

Exercise 9

- Find all bookings where the seat class is 'Economy' or 'Premium Economy', the airline is either 'British Airways' or 'Lufthansa', and the booking amount is over 400.(8 rows returned)

Exercise 10

- List bookings where the passenger's name starts with 'J' or 'M', the country is not 'Germany', and the amount is between 1500 and 1900. (11 rows returned)

Exercise 11

- Find bookings where the origin and destination are in the same country, the booking amount is not NULL, and the email domain is '.com'. (2 rows returned)

Exercise 12

- list all the bookings for Iberia and Delta Airlines in December with an amount between 1200 and 2500
